---

**Note!** Steveco takes care of connecting electrical equipments in network (400V/50Hz), but not repairing possible defects and breakdowns. Steveco's Helsinki container terminal records unit temperature twice a day on weekdays and once a day on Saturdays or on Bank holidays. Steveco reports discovered defects and temperature changes to **customer contacts (telephone or email)**. As part of this agreement the General Port Operating Conditions 2006 valid at the moment of the order, published by the Finnish Port Operators' Association are applied ([www.steveco.fi](http://www.steveco.fi)). Steveco requires that units are safe for users.
