CUSTOMS WAREHOUSING PROCEDURE

Dear customer,

As per new customs codex (UCC) article 270 customs warehousing procedure has to be concluded by re-export notification when non-union cargo is delivered directly to 3rd country. This regulation changes process when picking up cargo from Steveco customs warehouse.

Warehouse operator is responsible for cargo until re-export notification is concluded at customs of exit. Therefore Steveco will release cargo from customs warehouse only against re-export document made by Steveco from 1.5.2016. Otherwise releasing process remains as before. Steveco cargo control point collects customs documents before releasing the cargo.

For more information, please contact Aino Rauhamäki, 044-2323 583. Please note we will update our import terminal advice due this change in customs codex.

Kind regards

STEVECO OY
