

1. The driver (or agent) shall go to Steveco Service Center in the Gatehouse. The Service Center is open Monday-Friday 07:00-19:00. In the Service Center the TIR details are checked and two TIR copies including the arrival number and MRN given to the driver.
2. The driver drives to the Customs in V6, gets the TIR copies stamped (the original remains at the Customs) and brings the copy back to the Service Center. After that he is given the driving permit to the terminal.
3. The driver picks up the container.
4. When the driver has received the container, he drives to the Customs in V6, where the Customs officer checks that the unit is in condition equivalent to the TIR requirements, seals the unit, opens the transit procedure and removes the exit prohibition set by the operator in the gate system of the port. On request, the Customs officer adds to the copy the transit number and collects them to the operators. Finally, the drivers can drive out from the port.
